Corporal Tells of Parcel May Have Been Gold

OTTAWA (CP)—A statement in which Cpl. Gerald Albert West said he delivered a small but "awful heavy" parcel for an army major in Indochina last year was read Monday at the corporal's trial by court-martial.

"I was suspicious that it was gold or opium but I figured it must be all right," said the sergeant. Cpl. West described taking the parcel from Vietnam to Saigon where he delivered it to an army sergeant.

The major was identified later as Maj. W. A. Platt and the army said he will be tried by the court-martial later on charges not yet specified. The sergeant was Sgt. J. M. Champagne, already severely reprimanded and fined in Indochina.

The three soldiers are among eight implicated in the alleged smuggling by Canadian personnel attached to the international truce supervisory commission in South Viet Nam. Their ages and home towns have not been released by the army.

TODAY'S STOCK QUOTATIONS

TORONTO (CP) —Russell Industries slumped 1 1/2 to 14 1/2 while the rest of the stock market moved ahead during light morning trading today.		B.C. Forest 13 1/2	13 1/2
Russell, target of a takeover bid from Levy Industries, continued the decline that began Tuesday afternoon. Levy's offer of \$20 each for 419,000 Russell shares was successful, it was announced Tuesday.		B.C. Power 16 1/2	16 1/2
Levy gained 1/2 in light turnover.		Bell Tele 53 1/2	53 1/2
Elsewhere in the main list, Atlas Steel rose one point, Bank of Nova Scotia and Price Brothers 1/2 each, Interprovincial Pipe Line 1/4 and Bell Telephone 1/4.		Can Brew 55 1/2	55 1/2
Walker - Gooderham, Trans-Canada Pipe Line, Steel Company of Canada and Distillers Seagram all advanced in 1/2 to 1/4 range.		Can Cement 10 1/2	10 1/2
Losers included Falconbridge, off 3/4, Consolidated Paper, down 1/2, Oshawa Wholesale A down 3/4 and Dominion Foundries and Steel, off 1/4.		CM&S 25 1/2	25 1/2

to Sgt. Champagne." The statement said Cpl. West delivered only one small, heavy package in Saigon "and I only suspect that it contained gold."

Peace Crusade Big Issue In NDP Election Campaign

CALGARY (CP)—T. C. Douglas, national leader of the New Democratic party, said Tuesday a "peace crusade" will be the greatest single issue of the NDP's election campaign.

"Peace is too important to be left to generals, diplomats and merchants of death who fatten on the profits of war," he told 1,200 persons at a nominating convention here.

The problem of nuclear weapons had mushroomed into a Frankenstein and they had become a force which could destroy their creator.

"We now have all the deterrent we need," said Mr. Douglas. "The United States and Russia have nuclear weapons with an explosive force equal to 20 tons of TNT for every man, woman and child in the world."

The NDP would not allow nuclear weapons on Canadian soil and would turn Canada's military forces over to the United Nations as part of an international peace force.

Mr. Douglas received a standing ovation when he entered the hall, which was filled to capacity. Mr. Douglas flew here from Edmonton and was due to leave today for Saskatchewan.

Earlier, he told a press conference that strikes as a weapon in labor negotiations are obsolete. The times and issues had changed since strike votes were first used.

Mr. Douglas described as "ridiculous" censorship of crime comics and novels such as *Lady Chatterley's Lover*. The government had made Canadians "look silly" by some censorship practices.

He dismissed the Liberals as a major factor in the June 18 election except in Quebec where he believed they would win a few seats. The battle was between the Progressive Conservatives and the New Democrats in the rest of the country.

Canada's economy has lost its momentum and is standing still "in a morass of inactivity," he said. A small "corporate elite" had set the prices on most of the goods.

"There is no free enterprise in Canada," said Mr. Douglas. "The system we have is neither free nor enterprising."

MOVED FROM PRISON

PARIS (AP)—Mme. Raoul Salan, wife of the terrorist Secret Army Organization leader, has been permitted to leave prison and live in a religious home, officials said Tuesday. She and her ex-general husband were arrested April 26 in a police raid in Algiers, Madame Salan on a charge of having false identity papers.

No Defence But Peace —Pearson On H-Arms

VICTORIA (CP)—No defence, the exact nature of the commitments that the present government has made for Canada.

After that discussion, changes would be made if needed.

Moreover, a Liberal government would do what the Progressive Conservative government has "flatly and persistently refused to do"—establish a parliamentary committee to study defence and provide facts for the public.

The Conservative government had failed to follow through on its defence decisions and "as a result, we have wasted millions of dollars, we have defaulted our commitments to our allies."

"This government has made Canada look pretty silly."

The Pearson day started early in Toronto where he boarded a commercial jet for Vancouver. After a press conference, he headed by chartered plane for Comox and neighboring Courtenay on Vancouver Island, addressed a gathering of about 200 briefly, became an honorary chief—Man of Great Knowledge or Kuyimlen—of the Comox Indian band, and then flew on here.

Mr. Pearson said that smaller parties, "of course, are able to say things we would all like to believe, but unfortunately don't accord with the hard realities that the next government must face."

Under a Liberal government, there would be no compromise about maintaining Canada's position as a member of the 15-nation NATO alliance.

"Now, defence policy has to be realistic," he said. More than ever it had to be flexible. But decisions at the same time must be made when necessary and carried through.

But nuclear defence was far from everything. A Liberal government would meet Canada's share in stronger conventional forces.

ada a nuclear power — doing better includes keeping down the number of nations with nuclear arms."

But there was a difference, Mr. Pearson said. NATO control of nuclear weapons. That would not extend nuclear control. He paid tribute to External Affairs Minister Green for efforts in the cause of world peace. But it was regrettable that so often Mr. Green's colleagues had "sabotaged" those efforts.

He dealt briefly with Canada's attitude to the U.S. and said there should be no doubt that Canada is fortunate to have a country inspired by the same ideals.

"The U.S. deserves our strong support when it is right and our constructive criticism when we feel it is wrong."

He had been "very much impressed" by his Sunday meeting in Washington with President Kennedy.

A BRAW BUNCH O' LEGION LADDIES

The Royal Canadian Legion Pipe Band of Kelowna Branch 26, will leave here on Friday for Wenatchee to take part in the Washington State Apple Blossom Festival which takes

place on May 3 to 5 inclusive. The band will appear in the big parade slated for May 5. Back row, from left, Pipe Major J. Arthur, B. Millar, T. Burke, B. Mackie, A. Tucker,

A. Would, R. Stewart, L. Campbell, M. McCulloch, B. Matlock and Pipe Sergeant A. Harvie. Front row from left, Drum Major D. Johnson, Drum Sergeant D. Mac-

Donald, B. Wolfe, B. Moonen, R. Stewart, C. Henderson, F. Maxson, F. Ward, B. Hughes and band president G. W. Sutherland. Absent in picture was piper W. Haskett.

KELOWNA POWER SQUADRON RECEIVE AWARDS

Kelowna members of the B.C. Power Squadron who received their certificates recently in a joint ceremony with the Vernon Power Squadron following extensive study and examinations, are shown

here after the award ceremonies at Okanagan Landing. Back row from left are Dr. W. O'Donnell, Roger Sasseval, John Dore, Henry Shaw, Mrs. Connie Dellar, Dr. A. W. Brown, Allan Ribelin, Mrs.

Anne Pearson, Dr. Bruce Moir, Don Campbell, Bob Hall, Mrs. Ruby Wilson, Bob Wilson, Mrs. Gordon Wilson, Archie August, Henry Walker and Fred Dowell. Centre row, from left, Doug Sutherland,

Cal Brooks, Dr. H. Henderson, Dr. Gordon Wilson, Ray Dellar, Henry Van Montfort and Mrs. Irene August. Front row kneeling, from left, Garry August and Ken Wilson.

Buchanan Will Attend Chest Conference

Kelowna and District Community Chest president Harold Buchanan will attend the annual conference of the United Community Chests and Councils which is being held at the National Hotel, Vernon, May 10, 11 and 12.

Keynote speaker is Prof. William G. Dixon who heads UBC's School of Social Work. His speech will center on who should pay for what in health and welfare—tax funds or voluntary contributions.

At a following session Ernest D. Hill, Director of Social Planning for Community Chest and Councils of the Greater Vancouver Area will outline the services now financed by united funds in B.C.

Other speakers will be J. M. Anguish, executive secretary, Community Chest of Greater Victoria and Dean Miller, manager of Public and Industrial Relations Ltd., Vancouver.

McCREARY TELLS ALUMNI

UBC Research Hospital Will Fill A Vital Need

Of vital interest to Kelownians and all B.C. residents is the proposed research hospital planned on the University of British Columbia campus, UBC medical faculty dean Dr. John F. McCreary told a gathering of alumni and doctors here last night.

Dr. McCreary said there is growing alarm in the medical faculty that each year there are fewer and fewer "charity" cases for study by potential B.C. doctors.

The only answer, he said, is to build a research hospital which will offer both patients and medical students the opportunity for top notch treatment and study.

LATEST EQUIPMENT

"The patient, one who is not covered by a medical plan or who requires individual attention for an illness which, in the past he had to have treated at the Mayo Clinic or John Hopkins hospital, will be accommodated in an isolated spot with all the latest and most expensive facilities on hand," he said.

The hospital, of which three

buildings are already up, will cost about \$16,000,000 of which the British Columbia government will pay 50 per cent, the federal government 15 per cent and the remainder through public and private subscription. It will be a 410 bed hospital with classrooms for every type of medical study. Each wing will have its special type of medicine affiliated with beds to accommodate patients suffering from an allied illness.

INTENSIVE STUDY

Dr. McCreary said his faculty has made an intensive study of this type of hospital in the United States and Europe and it appears to be the only answer. He stressed that everyone in the province is directly concerned with the plan because it is being built for them.

He also touched on the development of the UBC medical faculty which began in 1950 with the first graduating class in 1954. He said 60 students from over 300 applicants were selected every year with an average of 52 graduates. There are 242 UBC medical graduates now actively practicing in the province and the remainder are involved in research across Canada and the U.S. He also discussed the qualifications necessary for medical students.

More than 95 were present to hear Dr. McCreary at the Capri Motor Inn. The dinner was sponsored by the UBC Alumni Association and the University Women's Club of Kelowna.

Dr. Clarke Gives Answers About Oral Polio Vaccine

In answer to a number of questions on the new oral polio vaccine which will be available in Kelowna around May 15, South Okanagan Health Unit director Dr. D. A. Clarke provided a few answers.

The introduction in Canada of the live poliovirus vaccine developed by Dr. Albert Sabin of the University of Cincinnati offers a tremendous opportunity in the field of preventive medicine—the large-scale immunization of the whole population by a vaccine that is taken by mouth.

Use of "live" vaccine is not new—there has been smallpox vaccination for nearly 200 years. The oral method of immunization, too, has been employed before. But now for the first time, these two features are combined in one of man's most determined attempts to cut down and finally eradicate the dreaded spectre of paralytic polio.

LIVE BUT WEAK

The familiar Salk vaccine is made from the killed virus, and given by injection, with all the equipment and precautions that use of the hypodermic method entails. Sabin oral vaccine is produced from virus that is "live," but weakened to the extent that it could never cause polio. Both vaccines have the property of increasing the body's resistance to the disease, but they differ in that the Sabin type, after being swallowed, works through the intestinal tract. In this way, it builds up a high degree of immunity to the body, while preventing the causative virus of poliomyelitis from spreading from person to person. For this reason, it should ultimately exterminate the disease itself.

Perfection of the "live" vaccine did not come overnight.

Early investigation and research by a number of scientists began over 12 years ago, even before Dr. Jonas Salk developed his now famous vaccine. In the intervening period, and before being licensed for use in Canada, the oral vaccine underwent rigorous checking and testing in many countries. During the past few years, it has been administered to many millions of individuals throughout the world.

A number of Canadian communities used it last year. Among them was Prince Albert in Saskatchewan, where 97 per cent of the population came forward to take the new form of immunization, following close medical assessment. This oral vaccine was found to live up to all expectations.

MADE IN CANADA

Sabin vaccine is now manufactured in several countries, and is authorized for use by the national health authorities of the United States, the United Kingdom and Canada, among others. The vaccine being used in British Columbia is produced at the world-famous Connaught Medical Laboratories of the University of Toronto, which have previously supplied large shipments of the vaccine to such countries as Japan and New Zealand.

Medical authorities, men who are specialists in this field, agree that it is too early to say whether the oral vaccine will replace the Salk type.

Sabin vaccine has many advantages: it is simple and easy to administer, pleasant-tasting, and may be fed to infants as well as to aged persons with no ill effects. Present indications, from the many detailed surveys and studies made throughout the world, are that a judicious combination of both Salk and Sabin vaccines, with the latter predominating, will prove to be the most effective against polio.

AVIATION COUNCIL MEETS

Big RCAF Air Show Kelowna May 20

The grandstand at the Ogo-pogo Stadium should be crowded on May 20 when a thrilling air show will be presented by the RCAF and members of the B.C. Aviation Council.

The show will be in conjunction with the executive director's conference of the B.C. Aviation Council which will be held in Kelowna on May 19 to 21 inclusive, with headquarters at the Capri Motor Inn.

Doug Johnson, secretary of the Kelowna Aviation Commission, is working on the program for the three-day conference at which, it is contemplated, 150 pilots from all parts of the province will be in attendance, most of them flying into the Kelowna Airport in their own aircraft. Department of Transport officials will also be here to take part in the business sessions.

The big air show, set for 1:30

p.m. will feature a demonstration lift by an RCAF Piasecki helicopter of the Search and Rescue Flight, an Albatross amphibian aircraft from the same group, possibly a fly-past by a new supersonic Voodoo jet interceptor and a fly-past and demonstration by BCAC members themselves, as well as an RCAF para drop into Okanagan Lake.

It is hoped the Kelowna City Band will be in attendance. Also planned for free public showing through the courtesy of Shell Oil, the BCAC and the Kelowna Film Society, will be a series of aviation films dealing with all aspects of aviation.

The film showing will take place at Centennial Hall on May 19 at 10:30 a.m. with a special repeat showing slated for May 20 at dusk at the city park grandstand.

Among the social highlights

planned for the conference, will be a swimming and diving demonstration and a trampoline demonstration under the direction of Jack Brow, recreation director for Kelowna.

Further details of the program and the air show will be made later.

A Christian Gives Message A Meaning

Awareness of man's God-given dominion is the great need of mankind, John D. Pickett of Chicago told a large audience in Kelowna last night.

Pickett held that the basis of demonstrating this dominion is spiritual understanding of God and of man as the expression of God.

"With this understanding comes the spiritual capacity to overcome ungodlike beliefs of fear, sin, sickness, and other destructive forces," he declared.

A well-travelled member of The Christian Science Board of Lectureship, Mr. Pickett spoke in the Senior High School Auditorium under the auspices of Kelowna Christian Science Society. He was introduced by Mr. Eric Hopkins of Vernon.

In his lecture entitled "Christian Science: The Unfolding Power of God Made Practical," Mr. Pickett emphasized that God's law of healing, as taught and practiced by Christ is universal and available to everyone.

"There are two basic foot-steps demanded of us," he said, "if we are to make practical in our lives the power of God to solve the problem of the present age. One: to gain the spiritual understanding of God. Two: to have the correct view of man made in the image of God."

RCMP-Safety Council Holding Safety Drive

A two-month spring check-up of motor vehicles is being conducted throughout the Interior by RCMP Highway Patrols in conjunction with the Canadian Highway Safety Council.

The safety drive, which continues throughout May, actually started in April, with spot checks by a team of RCMP Highway Patrol members.

Cpl. William Stacey, NCO in charge of the Kelowna district Highway Patrol, said today two extra units and four extra men were brought into the district on April 18 and 19.

A total of 805 vehicles were checked, out of which 159 received checkup slips requiring them to have mechanical defects corrected within a stipulated time after which they reported to police in assurance they had had the necessary work done.

Of the total checked, 12 were prosecuted. Cpl. Stacey, pleased at the results, said 21 per cent of the vehicles checked required attention.

The Canadian Highway Safety Council's spring checkup is advice to drivers to personally check such simple things as horns, windshield wipers, lights, brake lights, glass and rear view mirrors.

They advise a check by a competent mechanic of such things as tires, brakes, steering mechanism and exhaust systems.

The spot checks by RCMP are continuing this month throughout the Okanagan Valley, the Kamloops area, Revelstoke and other points, as highway patrolmen move from area to area unannounced, setting up check points at strategic locations.

Welcome Sign Is Acceptable

Kelowna Chamber of Commerce members agreed a neon plastic "Welcome to Kelowna" sign would be acceptable providing it wasn't placed on city park grounds.

At a meeting last night, William Scott, who had presented the idea for the sign, sponsored by an oil company, to City Council Monday showed drawings to members.

They recommended it be placed near the City Park cafe location rather than the Park. A second sign will likely be placed at the east entrance to the city. The sign features a large Ogo-pogo head.

OBJECTIVE REACHED

Last year's final total membership for Community Concerts was reached today at noon by Overture Concerts in their drive, which takes place all week. Headquarters for the drive is at the Library.

QUEEN'S SCOUT

Fifteen-year-old Chris Wood, son of Mr. and Mrs. C. W. Wood of 774 Elliott Street, Kelowna, received the coveted Queen's Scout Badge at a brief ceremony in Kelowna last night. Chris, a member of the 4th Kelowna Scout Troop, is the fourth member to receive the award in his group in the past six months. The badge was presented by Assistant Scoutmaster Peter Marsh on behalf of the District Scout Commissioner. The new Queen's Scout was presented with a pack board from the group committee by A. O. Aynsley.

Valley Praise In New Song

Chamber of Commerce members Tuesday hummed a few bars of a tune written and sent in by a Burnaby man for possible use here.

It goes like this: "When it's Broom Time in the Valley and the bees are humming merrily and springtime sunshine makes you want to dance, and so on." Members agreed it was a tune and thanked J. A. Alexander for sending it along.

Starling Bounty Raised To Dime

British Columbia Fruit Growers Association reminds all growers and interested parties the bounty on starlings has been raised to 10 cents a head.

Three receiving stations that were in operation last year in Oyanima are prepared to pay for dead birds. These include Bernie Gatzke, Bernard Gray and Steve Black.

In Kelowna and district, all that is required is to present the starlings' legs to Treadgold's Sporting Goods on Pandey St.

Everybody Here Seems Happy

C. of C. president J. Bruce Smith said last night, "the chamber is happy that Central Okanagan Naturalists' Club is happy that we're happy." He was referring to a letter from Mrs. H. Lamoureux, club secretary, commending the chamber for its backing of civic beautification and other clean-up projects.

BURNING DELAYED

Spectacular burning of the pig farm at the east end of town has been delayed for about two weeks. Chamber of Commerce learned Tuesday. All the equipment made there moved to its new location. It was planned to have Kelowna Volunteer Fire Department torch the building around April 20.

They Won Holland Trip So Friends Pitch In

Neighbors of the William Visser family were all set to be pinch-hitting parents while the couple, winners of a national contest, flew home to Holland.

Mr. Visser said today when his neighbors heard the news of the win, they all volunteered to look after the six Visser children. One, Bob Hall, Dilworth Crescent, said he'd take care of all six.

The couple has since made arrangements for a friend to stay at their home while they enjoy a two weeks trip in Europe.

Mrs. Visser answered a jingle and sent in a label or two to win a national contest sponsored by a canned milk company. Her husband said they'd forgotten all about the contest

until the good news came through on Good Friday.

They expect to leave within the next few weeks but "I'd leave today!" said Mr. Visser, a salesman for a Kelowna bread company.

They will fly from Vancouver to Montreal and on to Amsterdam and possibly Brussels and Paris, said Mr. Visser.

The trip is particularly exciting for the couple who came from Holland to Kelowna 12 years ago and didn't foresee ever returning to visit family and friends.

Mr. Visser said his mother who lives in Rotterdam, is 80 and he didn't really expect to see her again. Mrs. Visser's mother also lives in Rotterdam as well as a host of cousins. Excited? You bet.

A FEATURE OF BIG AIR SHOW HERE

A helicopter similar to this one will be a feature of the RCAF air show in Kelowna on May 20 in front of the

Ogo-pogo Pool. The big aircraft will demonstrate its lifting ability with an automobile.

It is used in search and rescue work and other vital survival and defence roles. The show

will be held in conjunction with the B.C. Aviation Council conference in Kelowna May 19 to 21.

WEDNESDAY, MAY 2, 1962 — PAGE 4

Divorce Procedure Must Be Given Consideration

This newspaper through the years has given support to the efforts of two CCF Members of Parliament to obtain reform of the procedure by which Parliament handles private bills for divorce from residents of Quebec and Newfoundland. We have agreed with the two members that the Commons cheapens itself by passing these bills by the hundreds without much consideration. The two members have used every stalling tactic to persuade the government to work out a better and more dignified method of disposing of divorce petitions.

However, we cannot agree with the action of these two members in the last House when in the final days of the session they allowed 327 divorce bills to die upon the agenda as Parliament was adjourned.

The two members rightly were annoyed that the government had failed to take any action on this matter, but their stalling tactics at this particular time worked a grave injustice on a large number of divorce petitioners. As soon as Prime Minister Diefenbaker had announced the date of the general election it was clear that there was nothing to be gained by continuing to hold up the passage of the divorce bills.

But the two CCF members continued their stalling and frustrated the hopes of 327 people from Quebec and Newfoundland who had gone to great trouble and expense to obtain a divorce in the only way open to them—by presentation of a private bill to Parliament. They will now have to wait for a new Parliament and present their bills again and at additional expense.

Doubtless, the two CCF members felt that the plight of these people, these innocent victims,

may force the new Parliament to face the problem of divorce procedure with more courage than its predecessors. Although the British North America Act allocates jurisdiction over divorce to the federal government, most of the provinces have legislation authorizing their courts to administer divorce law. Quebec and Newfoundland, however, have never taken this step because of the strong religious convictions against divorce in any form. Parliament, therefore, has had to fill the gap and granted divorce under the law to residents of these two provinces, who had a constitutional right to divorce but no access to a court to hear their case.

Obviously Parliament is not properly qualified to act as a court of law, and the hearing of divorce petitions in many cases has left much to be desired. The general opinion in recent years has been that Parliament was operating a divorce mill in a degrading fashion.

There have been suggestions that Parliament should rid itself of direct responsibility for divorce cases by transferring jurisdiction to an appropriate federal court. It appears, however, that this solution would outrage the susceptibilities of Quebec and Newfoundland to such a degree that no government has been willing to accept responsibility for the required legislation.

There is another suggestion. When it becomes possible to amend the constitution, the government should ask the provinces to take from it full responsibility for divorce law. It would then be open to each province to administer its own law through its own courts, or, should Quebec and Newfoundland so desire, to prohibit divorce entirely.

Still On The Fence

After seven months of indecision, and of sitting on the fence on the question of Britain joining the European Common Market, the British Labor party leader, Hugh Gaitskell, has decided that it is time his party decided what its official policy is going to be. It is known that the party is badly split on Common Market policy, with as many in favor of entry as there are against. But Mr. Gaitskell wants party unity on this question before it comes to the stage of parliamentary discussion, likely to be in the fall of the year. Plans have been made for a series of meetings after the Easter recess at which the pros and cons of the Common Market problem will be thrashed out in the hope of reconciling the conflicting viewpoints within the party.

This could be one of the most

tricky tasks that Mr. Gaitskell has yet had to face. Strong passions over the Common Market lurk below the surface. When these are let loose at the meetings to come, there could be an open clash which would rival for bitterness the rows over defence and nuclear disarmament.

So far, there has not been a hint as to what Mr. Gaitskell's own views are regarding Britain's entry into the Common Market. He has taken the line that it is not possible to formulate a policy until the exact terms of entry have been clearly defined. Now he is changing his mind. He feels that the Labor party must jump one way or the other, but it must get off the fence. And the great problem revolves around the question as to which way it will jump when it does so.

TIPTOE THROUGH THE TULIPS

U.S. Nuclear Policy Seen As Curb To NATO Move

By HAROLD MORRISON
WASHINGTON (CP)—United States nuclear policy may prevent development of an independent nuclear force for the North Atlantic alliance. It also may widen the diplomatic split between the U.S. and France.

The question of how the Western Allies can exercise some measure of authority over nuclear weapons supplied by the U.S. for use by NATO will be taken up by NATO foreign and defence ministers at Athens May 3-6.

State Secretary Rusk expects the issue will be "alluded to" at the meeting but that no final decision will be reached. Amplifying on this remark, a high administrative source said Thursday the U.S. will participate in discussions but will offer no proposals on how the issue may be resolved.

The implication in this approach is that the U.S. is not too keen on the idea of getting too many fingers on the nuclear trigger and may, in fact, be subtly putting up a number of roadblocks to discourage the idea of an independent force and to suggest continued reliance on the U.S. for final decisions on how and when nuclear weapons would be used.

This informant said the existing situation in which NATO relies on the U.S. for final decisions on use of nuclear weapons does not present any military weakness for NATO. The U.S. would continue to consult with its allies before using such weapons.

The question of extending authority over the weapons is a

political matter, arising from the desire of some NATO countries to participate in nuclear decision-making.

The present U.S. position, however, contrasts with President Kennedy's Ottawa statement a year ago when he expressed hope of eventually establishing a NATO seaboard missile force, "which would be truly multilateral in ownership and control, if this should be desired and found feasible by our allies."

Since then Kennedy has been talking more and more of preventing the spread of nuclear

weapons and while his advisers maintain this policy pertains only to non-nuclear countries, the suggestion left that Kennedy is in favor of a freeze—whether it is a matter of other countries or whole groups of countries.

Federal Grants To B.C. Are Up

By F. TISSINGTON
(Daily Courier Ottawa Correspondent)

OTTAWA (Special)—Federal grants and payments to British Columbia have increased by over \$90 million in the past six years. A report released here by finance minister Donald Fleming shows that the estimated total of federal financial aid to B.C. in the current fiscal year will be \$168,768,000. This compares with a total of \$77,911,000 in the 1956-57 fiscal year.

Federal aid to provinces takes many forms but is broken down generally into three categories. First, there are unconditional grants including such things as statutory subsidies, tax rentals, equalization, stabilization and 50 per cent of the federal estate tax and income tax on power utilities.

Then there are conditional grants covering items such as agriculture, health, hospital insurance, welfare, vocational training, highways, resource development, civil defence and municipal winter works.

The final category is payments to the benefit of provincial institutions and including grants to universities and grants to municipalities in lieu of taxes on federal property.

In 1956-57, B.C. received \$58,426,000 in unconditional grants, \$17,401,000 in conditional grants

and \$1,994,000 in other aid. In the current fiscal year the estimate is \$79,881,000 in unconditional grants, \$83,087,000 in conditional grants and \$5,800,000 in other grants.

The largest single amount B.C. will receive this year is \$71,780,000 in tax abatements. The province will receive \$20,114,000 in hospital insurance aid, \$21,492,000 in welfare payments and \$11,000,000 as federal contribution to highways and transportation. Federal university grants will total \$3,332,000 and grants to municipalities in lieu of taxes will total \$2,668,000.

In the seven years since 1956-57 and including the estimates for the current fiscal year, British Columbia will stand to gain \$884,039,000 in federal financial assistance.

Totals for each fiscal year for all three classes of federal financial aid to B.C., are as follows:

1956-57	\$77,911,000
1957-58	\$92,000,000
1958-59	\$128,032,000
1959-60	\$128,732,000
1960-61	\$143,580,000
1961-62	\$157,448,000
1962-63 (est.)	\$168,768,000

HONORED POET

IT'S BEST TO KNOW ABOUT ALCOHOL..

NOT ENOUGH IS KNOWN YET ABOUT ALCOHOLISM.....

RESEARCH INTO THE CAUSES, NATURE AND EFFECTS OF ALCOHOL ADDICTION IS A COMPARATIVELY NEW FIELD OF SCIENCE. IT IS A CHALLENGING FIELD FOR FUTURE WORK.

...IN THE LABORATORY ...IN THE HOSPITAL ...IN THE SOCIAL SCIENCES

ENOUGH IS KNOWN NOW BY DOCTORS, NURSES, SOCIAL WORKERS AND OTHERS TO PROVIDE A GREAT DEAL OF HELP FOR MANY ALCOHOLICS. BUT MORE MONEY AND MORE TRAINED PEOPLE ARE NEEDED TO REDUCE THE EPIDEMIC PROPORTIONS OF THIS DISORDER.

SOURCES OF HELP.....

CLINICS.....

THERE ARE INCREASING NUMBERS OF CLINICS STAFFED BY EXPERIENCED MEN AND WOMEN TO WHOM ALCOHOLICS AND THEIR FAMILIES CAN TURN FOR PRACTICAL HELP. OFTEN THIS AID CAN BE PROVIDED ON AN OUT-PATIENT BASIS, SO THE PATIENT CAN GO ON LIVING AT HOME AND EARNING HIS OR HER LIVING.

HOSPITALS.....

AN INCREASING NUMBER OF GENERAL HOSPITALS ARE ADMITTING ALCOHOLIC PATIENTS FOR MEDICAL TREATMENT WHEN THIS IS NECESSARY.

SOCIAL AGENCIES.....

MORE AND MORE SOCIAL WORKERS ARE GETTING SPECIFIC TRAINING IN HOW TO PLAY THEIR PART IN THE REHABILITATION OF ALCOHOLICS AND THEIR FAMILIES.

OTTAWA REPORT

New Colonel A Publisher

By PATRICK NICHOLSON

The glamor of one of Canada's most famous regiments has been highlighted by the revival of the long defunct rank of Honorary Colonel of the Toronto Scottish, newly filled by the appointment of Mr. Roy Thomson, the Toronto-born but globally-known newspaper publisher.

The Toronto Scottish Regiment was first raised early in 1915 by Lieut.-Colonel S. G. Beckett—formerly of the Mississauga Horse—to form part of the Canadian Expeditionary Force. It was named the 75th Battalion, and so obviously became known as "The Six Bits"; but quickly won a million-dollar reputation.

Between 1915 and 1918, its 800 or more officers and other ranks fought in all the great infantry battles in Flanders Fields and beyond: the Somme, Arras, Vimy Ridge, Hill 70, Ypres, Passchendaele, Drocourt-Queant and the Hindenburg Line. The gallantry of the 75th won it no less than 184 personal decorations. These included the Victoria Cross awarded to its medical officer, the late Captain Bruce Hutchison—whose courage also won him the Military Cross during the same week at the battle of Drocourt-Queant.

FAMED COMRADES

In 1923, the Toronto Scottish regiment of militia became affiliated with the British territorial regiment, the London Scottish (Gordon Highlanders).

The Colonel-in-Chief of the regiment, Queen Elizabeth, presented new colors to it during her visit to Canada in May, 1938. Later that same year, it was the first complete unit to land in Britain, ready to fight in World War II. It moved to Brest a few months later, but was evacuated at the fall of France. It first encountered the enemy during the Dieppe Raid in 1942; and in 1944 it landed in Normandy shortly after D-day. It then fought its way through the 2nd Canadian Division through France and the Low Countries into Germany, beside such famous formations as the 51st

Highland Division, the Desert Rats and the Polish Armoured Division.

As Honorary Colonel of the Toronto Scottish Regiment, Mr. Thomson now fills a post which has been vacant for 35 years. The first holder of this appointment was Major-General Sir James MacBrien, who was also Commissioner of the RCMP. Later Major-General Garnet Hughes, son of the famous Minister of Militia Sir Sam Hughes, filled the appointment until his death in 1937. Since then no famous Torontonians with Scottish associations have been judged suitable for the rank.

FORMAL MEETING

Mr. Roy Thomson will meet the regiment and be received by it on May 22. On that occasion he will review it in full dress, and will be presented with the claymore and silver scabbard to mark his association with the famous regiment. On that day the Toronto Scottish will also hold its annual "open house", giving a demonstration of its training and recreational activities before an audience of the families and friends of the members of the regiment and the regimental association.

Three weeks later Mr. Thomson will also take part in the ceremonies when the Queen Mother, Queen Elizabeth, is officially greeted in Toronto by the regiment. The "Queen-Mum", as she is affectionately called, is still the Colonel-in-Chief of the regiment, so it will form a royal guard of honor for her, led by its pipe and drum band.

Since the Toronto Scottish is affiliated with the Gordon Highlanders, its new honorary colonel might well have acquired the right to wear the tartan of Scotland's Gordon clan as part of his uniform. By coincidence, the chieftain of the Gordons was formerly associated with the newspaper interest in Britain, which Mr. Thomson now controls. But in fact the regiment, like the London Scottish, wears the kilt of hodden grey.

TO YOUR GOOD HEALTH

Thyroid Is A Damper

By JOSEPH G. MOLNER, M.D.

Dear Dr. Molner: Please explain a little about an over-active thyroid gland. — MRS. A.N.B.

The best explanation of the thyroid is that it is like the damper on a furnace. It controls activity.

Shut off the draft and the fire smolders along.

Open the draft and the fire roars — and so with an over-active thyroid (hyperthyroidism). Metabolism and all body processes are keyed up.

There are all degrees of this, of course. Mild cases speed us up a bit. More distinct cases produce the buzzing sort of person who is constantly "on the go" that other people despair of keeping up.

In severe, uncontrolled cases, they can play havoc.

The nervous system is so stimulated as to make irritability a prominent symptom. The individual may be so nervous as to have a small, tense tremor of tongue and fingers.

His skin is warm and moist; he dislikes warm rooms; tolerates cold; prefers winter to summer. The vascular system is keyed up, too. Pulse is fast, blood pressure elevated. In time this can be exhausting to the heart, and is known as "thyrotoxic heart disease."

The body's chemistry naturally is affected. Blood sugar tends to rise, and there may be sugar in the urine, requiring care to distinguish this from diabetes. (If a diabetic develops an over-

active thyroid his sugar balance goes awry, and prompt, careful adjustment of diet and insulin is necessary.)

The body demands more protein and the patient can lose weight despite a good appetite. Calcium and phosphorus reserves in the body may be depleted.

So much for severe cases. More numerous are the subtle cases that may be overlooked. Since this trouble can occur at any age, it sometimes turns out to be the reason for a certain amount of irritability, restlessness and cantankerousness among otherwise nice old folks.

Effective treatment varies according to the case—medicine often is perfectly adequate. Sometimes part of the thyroid gland is removed surgically. The decision rests on such things as the degree of trouble, enlargement of the gland (goiter), or presence of nodules or lumps in the gland.

You can't attempt to second-guess the treatment until the individual case has been examined and sometimes watched for some period of time. Fortunately there are excellent diagnostic tests: The basal metabolic rate or "BMR," based on breathing into a device which measures the amount of oxygen you use; the chemical test for "protein bound iodine" or "PBI," and the use of radioactive iodine to measure the speed at which it is taken up by the gland, hence gauging the gland's activity.

THESE PAGES ARE REPRODUCED HERE AS A PUBLIC SERVICE. THEY ARE FROM A FACTUAL BOOKLET JUST PUBLISHED BY THE ALCOHOLISM AND DRUG ADDICTION RESEARCH FOUNDATION OF ONTARIO, 24 HARBOR ST., TORONTO 5, ONT.

ALCOHOLICS ANONYMOUS.....

THRIFT SHOP WARES EXAMINED

Mrs. Brenda Morrill, left, chairman of the Thrift Shop, and President Alleen Moncur of Vernon Branch Canadian

Mental Health Association examine the many articles donated to the new Thrift Shop which opened Tues. The larger

facilities allow for a more spacious shopping centre, an attractive lounge with kitchen facilities and an office. The

association of Registered Nurses will host a coffee party on Saturday in the White Cross centre for anyone interested in Mental Health.

Thrift Shop Moves Into New Premises At Vernon

VERNON (Staff) — The Thrift Shop at the White Cross Centre has a new home today. From a modest beginning, the Thrift Shop almost doubled its space Tuesday when an extension was opened immediately around the corner from Coldstream Ave.

It is self dependent, and since its beginning in December, 1961, the shop has earned \$50 a month for mental research in the province. In addition, rent and normal monthly bills are paid out of any profit realized.

A branch of the White Cross Centre, the Thrift Shop welcomes old clothing, dishes, household goods, almost anything in reasonable condition that can be resold.

The centre is operated by volunteer help, and those that are emotionally disturbed in the city, are welcome to use the facilities. At present more than 30 persons have joined the centre for friendship and occupation therapy. About 20 women donate their time and labor to the shop weekly, and five others are in the centre itself. All are volunteers. No salary is paid.

The White Cross Centre is the

offspring of the local Canadian Mental Health Association and operating expenses come from being a member of United Appeal.

President Alleen Moncur says: "Without United Appeal it would be impossible to continue the good work we do here."

Plans are now underway to remodel and staff an occupational therapy room above the Thrift Shop and centre. Eventually their aim is to employ a full time Mental Health counselor, who would operate from Vernon throughout the Okanagan.

Postmaster Takes A Rest

OYAMA — Postmaster Robert Brown is on leave of absence after 13 continuous years service to the community. While Mr. Brown is away, mail carrier Walter Sproule and Mrs. Sproule will be sharing the duties.

Mr. and Mrs. Bernie Gatzke and two children have returned from a visit to the Seattle World's Fair.

Jailed For Gas Theft

VERNON (Staff) — Gerald Robert Melnychuk, 21, was sentenced to three months in jail here Tuesday for attempting to steal gasoline from a motor vehicle. Melnychuk will serve the term concurrent with one month he received in default of a \$50 fine when he was convicted for not remaining at the scene of an accident last month.

Donald Vollans, who is charged with the theft of a Department of National Defence truck has been remanded in custody for trial May 9. Leo Valouch of Leo Valouch Construction Co. Ltd., was fined \$15 for failing to secure an employee's Unemployment Insurance Commission book. He pleaded not guilty to the charge and conducted his own defence.

Burning Permits Now Required

OYAMA — Trustees of the Oyama Fire Protection District announced that Chairman Harold Butterworth has been appointed by the Vernon office of the B.C. Forest Service, to issue burning permits for the Oyama area.

Mr. Butterworth, who will issue the permits from his office at Kalamay Bay Resort, will be the only local source of permits which are required for either camp fire or any type of burning.

FIVE WEEKS TO GO

The parties have almost five weeks to complete their rosters. Official nomination day in 24 constituencies is Monday, June 4, two weeks before the election. Nominations in 21 widely scattered ridings close Tuesday, May 22. May 21 is a holiday — to allow two extra weeks for delivery of election supplies. Two constituencies elect two members apiece.

The large number of candidates already in the field is unusual so early in the campaign but is explained by the fact there was considerable advance warning that this would be an election year. Candidates in many constituencies were chosen months ago.

All four major parties have indicated they plan to field full slates if possible and Progressive Conservative-Liberal contests are expected in every

SOCIAL CREDIT LAGS

British Columbia is setting the fastest nomination pace with 71 candidates named for 22 seats. The Atlantic provinces trail with 42 nominees for 33 constituencies, but no Social Crediters have been chosen there yet pending seminars planned during the next two weeks.

Party leaders all have been nominated. Prime Minister Diefenbaker will seek re-election in Prince Albert and Liberal Leader Pearson in Algoma East. Robert Thompson, Social Credit leader, is trying for a Commons seat for the first time, running in Red Deer. NDP Leader T. C. Douglas will run in Regina City. He was elected to Parliament in 1935 and was re-elected in 1940, resigning in 1944 to lead the CCF to power in Saskatchewan.

The Communist party leader, Leslie Morris, is running in Toronto Trinity.

At dissolution, Progressive Conservatives held 20 seats, Liberals 51, CCF-NDP eight. Three seats were vacant.

Following is list of Western Canada nominations:

Legends: PC — Progressive Conservative; L — Liberal; NDP — New Democratic Party; SC — Social Credit; Comm. — Communist; x — member of last House.

MANITOBA

(14 members)

Brandon — Bourlis — xWalter Dinsdale (PC).

mellow!

Canada's favourite ale for 176 years

brewed & bottled by MOLSON'S CAPILANO BREWERY LIMITED

Gov't Now 'Arrogant' —Nimsick

LUMBY (Correspondent) — Provincial affairs was the theme of the New Democratic Party meeting in Lumby when Leo Nimsick, MLA from Cranbrook was guest speaker supporting Les R. McLean party candidate for Okanagan-Revelstoke in the forthcoming general election.

Of the present government Mr. Nimsick said: "This government is following the same trends as most governments who have been in power for a long time. It has become arrogant. The cabinet knows best so it ignores the wishes of the people and even of its own backbenchers."

He speculated that the arrogance could come from failure, "the many bubbles that have power." He listed the Frohisher development, Wenner-Gren being given 40,000 square miles of British Columbia for promised development to include a spectacular mono-railway and Premier Bennett cutting down the first tree to symbolise the beginning of a construction that never materialized.

On the Peace River project he said: "He (Premier Bennett) did try to save the Peace River when he took over the B.C. Electric and by doing so he also bailed out Wenner-Gren to the tune of \$8,000,000, the cost of surveys," said Mr. Nimsick.

SET BACK

He read newspaper quotes from pre-election speeches in 1960 crediting Attorney-General Bonner with blasting the CCF's plan to take over the BCE as "irresponsible" and that "it would set the country back 30 years."

He contended that there has been real animosity between the provincial and federal government ever since federal authorities stepped in and stopped the Kaiser dam development.

Coldstream Beefs Up Budget To Record High

COLDSTREAM (Staff) — A record budget for 1963 in Coldstream has been set at \$193,000, an increase of more than \$40,000 over the 1961 budget. Mill rate will be 40.8.

Expenditures have been estimated at \$191,000, allowing for a light surplus in 1963. The actual 1961 surplus was more than \$3,000.

The mill rate details will be general: 10.25, debt; 7.5, schools; 12.0, down 1.0 from last year; water district; 1.0, down one mill from 1961; and the new fire district tax of four mills. Some areas not affected by all tax.

The Lavington area will have a reduction in taxes as they are not involved in the first district. Those within the Coldstream Fire District with the exception of the lakeshore area, taxes will be comparable with 1961. All lakeshore property will have an increased tax.

The fire tax is on improvement only while the water and school tax is on improvements and lands.

Revenues from water is expected to total \$40,800 in 1963 while expenditures should not increase beyond \$39,910. Fire expenditures, operation of the fire department, is estimated at \$5,550 during the year.

In other council news; Council was informed the new fire unit would be in Coldstream from the manufacturers at Abbotsford within 10 days.

Discussion took place on fire protection in the area, mainly the alarm system, but no decision was reached.

The Department of Highways has approved a \$6,000 grant to the community in aid of reconstruction of municipal roads. They asked for \$13,000.

Road restrictions have been removed from all municipal highways.

A petition was received from a group of owners in the Kalavista subdivision asking for paving of one side of the road. The matter is under study.

About six members and officials from Coldstream will attend the Okanagan Valley Municipal Association meeting in Armstrong, May 17.

Enderby Church Scene Of Davyduke Wedding

ENDERBY (Correspondent) — A lovely Easter wedding was held in St. Andrew's United Church on April 21 at 7 p.m. with Rev. H. J. Aalstink officiating.

The church was beautifully decorated for the evening service when Darleen Carol Dunn, daughter of Mr. and Mrs. Bert Dunn of Enderby became the bride of William Davyduke of Esmond, son of Mr. and Mrs. John Davyduke.

For the ceremony the bride chose a white gown of misty nylon net and lace over tulle, with a bouffant skirt. The fitted bodice was delicately set off with cup sequins and pearls also featuring long jilly point sleeves, and a square neckline.

Her chapel veil of floral embroidered illusion net hung from a tiara of seed pearls and crystals. The bridal bouquet consisted of yellow roses and white hyacinths.

The bride's maid of honor was her cousin Eleanor Petch of Kelowna. Her two sisters Cheryl and Valerie were bridesmaids. They wore identical gowns of daffodil yellow tulle veiled with yellow chiffon set off with a scooped neckline and sash cummerbunds. The matching gloves and head-dresses of chiffon and pearls were designed and made by Eleanor Petch. They carried bouquets of narcissus and hyacinths.

BEST MAN

The groom's best man was Daniel Petch, cousin of the bride. Ushers were Grant Gerib and J. McAmmond.

The bride's mother wore a blue dress with matching white accessories. The groom's mother chose a delicate green dress with white accessories. Reception was held for 150 guests in the Mara Hall which was decorated with yellow and white streamers and white wedding bells. Yellow daffodils decked the tables and in the centre of the bride's

table was a three-tier wedding cake flanked by tall candles.

Toast to the bride was proposed by R. H. Koshimaki and responded by the groom.

The bride chose a waffle-knit suit of beige with green bag and gloves and a beige hat for the honeymoon outfit. Her corsage was of pink carnations.

Out of town guests were Walter Davyduke and Miss Irene Jones, Vancouver; Miss Ruth Clumas, Ganges; Emmeth Petch, Mr. and Mrs. Victor Petch, Mr. and Mrs. Bruce Petch, all of Kelowna. Mrs. Edna Patterson, Mr. and Mrs. Watson, and Miss Elsie Abel, of Vernon; Mrs. Harvey Gay, Regina, Sask.; Mr. and Mrs. Steve Melnychuk and Mary Ann, of Solesqua.

City Man Burned By Steam

VERNON (Staff) — Manager-owner of Roberts' Cleaners in Vernon, Art Roberts, received burns to his legs Tuesday when a steam pipe in the building broke. His condition is reported as "good" today by hospital authorities.

Firemen were called to the store to extinguish the boiler fire while the entire room was engulfed with steam. Damage to the building was not extensive. The fire department was also called to the Skyway Drive-in when a half-ton truck owned by Clement Gottfridson caught fire. No one was injured but the truck was seriously damaged. It is believed the fire started under the floorboards of the vehicle in the cab.

You can go ALL-OUT If you feel 'ALL-IN'

Today's tense living, overwork, worry, may affect normal kidney action. If kidneys slow down impurities remain in the system. Then backache and that "fired" feeling often follow. That's the time to take Dodd's Kidney Pills. Dodd's help stimulate the kidneys to normal action. You feel better — not better — work better — play better. Get Dodd's Kidney Pills now. You can depend on Dodd's.

Oil Kings Drop Second Memorial Cup Game 4-2

GUELPH, Ont. (CP)—Coach Bus Brayshaw of Edmonton Oil Kings is looking for outside help after his club's second straight Memorial Cup final loss, but it's a cinch he won't replace his goaltender.

But for Harrison Gray's performance in the Edmonton net last night, the Oil Kings might well have been cowed beyond resurrection.

Hamilton Red Wings fired 40 shots at the young goalie and he felled them 36 times as the Wings took a 4-2 victory and a 2-0 lead in the best of seven series.

Brayshaw said some changes will be made. He is expected to go after Marc Dufour of Brandon Wheat Kings, the club Edmonton defeated to make Canada's junior hockey final. Brayshaw said Dufour will join the Oil Kings only if he is in top shape.

Hamilton coach Eddie Bush also hinted at changes. It's expected Jack Wildfang, who played sparingly in the first game, won 5-2 by the Red Wings, will be used in the third game here Thursday night.

Bush can hardly be as worried as Brayshaw, but the Hamilton coach sounded skeptical after the game.

"We knew we were in a hockey game, but we can't seem to score often enough. That Edmonton goalie either has horseshoes or is a good goalie."

The Oil Kings, although giving up some territorial edge, were in the game until 15:20 of the third period when Hamilton's Lowell MacDonald scored his fourth goal of the series. That made the score 4-2.

Pit Martin, John Goffton and

Howie Menard got the other Hamilton goals. John Lashy and Norm Beaudin scored for Edmonton.

Edmonton took an early 1-0 lead when a penalty to Greg Pelling of the Oil Kings backfired on Hamilton. Lashy got a breakaway and beat Hamilton netminder Buddy Blom on the short side at 4:58, nine seconds after Pelling had gone to the penalty box.

A power play put Hamilton back on even footing before the period was over. Wayne Mulron was off when Goffton grabbed his way over the Edmonton at 16:46.

Gray had no chance on Martin's screened shot that put Hamilton ahead at 18:03 of the second period. Martin worked his own rebound and beat Gray line with MacDonald, faked a pass and then shot.

Smokies Take It Easy After Second Victory

TRAIL, B.C. (CP)—Trail Smoke Eaters just sat around Tuesday.

It was the first day in a month that they hadn't practiced or played in the Allan Cup playoffs.

The eastern champion Montreal Olympics, however, spent an hour on skates in search of the pace they hope will produce victory in tonight's fourth game of the best-of-seven final series for the Canadian senior hockey title. Trail leads the set 2-1.

The Smokies can take the crown by winning tonight and Friday. One or more victories by Montreal would push the series to games Saturday and possibly next Monday.

Only one lineup change is in prospect tonight, involving a replacement for Montreal forward George James, who suffered a shoulder and back injury and face bruises in the third game Monday in a collision with Trail's Russ Kowalski.

Coach Bobby Kromm of Trail said his club had earned its lay-off.

"We have been going hard all what the doctor ordered." year. The boys have been on the ice every day for the last in these words: "A very good month. The rest might just be goalies and a strong defence."

Giants Nip Pirates 4-2 Extend Winning Streak

Sensational? Phenomenal? Spectacular?

Take your pick to describe the pitching job being turned in by San Francisco Giants' mound staff.

Billy O'Dell added to the amazing record when he beat Pittsburgh Pirates 4-2 Tuesday night and ran the National League leaders' winning streak to seven games. He was the fifth Giant hurler in succession to go the distance.

In those five games against Juan Marichal, Jack Sanford, Billy Pierce, Gaylord Perry and O'Dell, opposing Chicago Cubs and Pittsburgh batters have been able to score only five runs and the Giants' earned run average is an astonishing 1.13.

At Los Angeles, Doug Camilli's run-producing single in the last of the 16th gave the Dodgers a 6-5 decision over Chicago. St. Louis Cardinals bopped Houston Colts 6-4 and Cincinnati Reds walloped New York Mets 8-2. Milwaukee Braves and Philadelphia Phillies were idle because of cold and wet grounds.

Carlos Ortiz Named Fighter Of The Month

NEW YORK (AP)—Lightweight champion Carlos Ortiz of New York was named "fighter of the month" by Ring magazine today for his one-sided triumph over defender Joey Brown in their 15-round title fight at Las Vegas April 21.

Brown was made the No. 1 contender followed by Dave Charney of England. In another lightweight change, Carlos Hernandez of Venezuela whipped Doug Vaillant of Cuba and moved up from sixth to third among the contenders.

In the heavyweight ranks Sweden's Ingemar Johansson was advanced from fifth to fourth in an exchange of places with Bob Cleroux of Montreal. The switch resulted from Cleroux's loss to third-ranking Zora Folley of Chandler, Ariz.

Cassius Clay of Louisville, who stopped George Logan of Boise, Idaho, moved up from 10th to ninth. Argentina's Alejandro Lavorante fell from ninth to 10th.

Mounties Lose Close One

The Pacific Coast League played tight close to the vest again Tuesday night—but it made little difference in the standings.

Surprising Salt Lake City retained first place half a game in front after a 3-1 win over Vancouver; second place Seattle dropped San Diego 3-1 and Spokane beat Tacoma 3-2.

The Hawaii at Portland game was postponed by rain.

Bill Bailey allowed five well-spaced hits as Salt Lake City downed Vancouver. He struck out six. His opponent was hard-luck Al Schroll, who struck out 10 but allowed as many baseruns including Max Alvis' first inning homer with Bill Williams aboard.

Seattle righthander Pete Smith helped win his own hall opener in the World Fair city, game battling in two runs to drop the Padres in the series. Tom Harper's solo homer accounted for San Diego's tally in the ninth. It was Seattle's fifth straight win.

Spokane broke a four-game losing streak with its win over the defending league champions. The Indians were helped by weird base-running by Tacoma.

Yankees Drub Sox 6-1 Strengthen A.L. Lead

There was a rare bid for a two-man no-hitter in the American League Tuesday night. New York's front-running Yankees didn't quite pull off that spectacular stunt, but they did overwhelm Chicago White Sox 6-1 and strengthened their hold on first place.

Bill Stafford and Roland Sheldon staged the drama, holding the White Sox without a hit for eight innings. After the spell was broken when Sheldon was nicked for a run in the ninth, Marshall Bridges put on a workmanlike flourish by quelling the mild Chicago threat.

The three-man two-hitter resulted in the Yankees' sixth straight victory and stretched their A.L. lead to 1 1/2 games. Chicago fell into third, 21 percentage points behind Detroit Tigers.

Vic Werz delivered for the fourth straight time as a pinch hitter and gave Detroit a 3-2 10-inning decision over Kansas City Athletics. Washington Senators ended a 13-game losing string, nipping Boston Red Sox 2-1 on Pete Burnside's four-hit pitching. Leon Wagner took over as the majors' hottest home run hitter with eight as Los Angeles Angels topped Cleveland Indians 8-6. And Camillo Pascual's pitching and hitting led Minnesota Twins over Baltimore Orioles 8-3.

Stafford turned a semblance of the White Sox without a semblance of a hit through five innings.

Sheldon kept the string going until Nello Fox opened the last of the ninth with a sharp single up the middle. Joe Cunningham drew a walk and Floyd Robinson rapped a double to right, chasing in the lone Chicago run and bringing in the hard-throwing Bridges from the bullpen.

Bridges put away the first two men he faced, walked Sammy Esposito, and got Sherm Lollar on a foul pop for the final out.

Stafford (2-2) twice hit Fox bats.

with pitches and walked Al Smith twice. Sheldon issued the last one walk during the eight hitless innings.

With the help of two errors three unearned runs, the Yankees built up a 4-0 lead on losing lefty Juan Pizarro (2-2) before Elston Howard slugged a two-run homer in the ninth against Herb Score. Bobby Richardson, who has hit in all 16 games this year, collected two singles in the Yankees' 10-hit offense and Roger Maris had a single for the 13th hit in his last 24 at bats.

Fallout Controversy Boils Again

OAK RIDGE, Tenn. (AP)—The controversy over radioactive fallout from nuclear tests is boiling again. It finds many intelligent persons confused and puzzled, especially over the disagreements among scientists. A few say fallout doesn't hurt humans at all. Many say there possibly or probably are some effects, but so small they can never be measured. Another says fallout from the new U.S. test series alone might cause 300,000 persons to die early. He quickly adds a vital qualification—that this would happen during the next 2,000 years. This would average to 150 a year among the scores of billions of humans who would be born in 2,000 years. Scientists can only make highly educated guesses based on indirect evidence. And the fallout controversy is highly colored with emotional, humanitarian, military and political considerations. **NOT SURE YET** Scientists aren't positive yet whether the radiation from fallout, admittedly small, really harms human heredity and health, or how little radiation it takes to do so. Here at the Oak Ridge national laboratory, Dr. William L. Russell and associates have analyzed 1,000,000 mice since 1950 for clues or principles concerning the effects of low-level, chronic radiation might have on human heredity. Scientists have some guideposts in the fallout argument. For example, they know human bodies have always been unavoidably a bit radioactive, since life began. This is caused by natural or background radiation. About 1,000 cosmic rays a minute strike the average human at sea level—and 2,000 a minute if you live at mile-high altitude. **COMPARED TO X-RAYS** All this natural radiation gives us, on the average, a dose of about three to four roentgens (units of radiation) in 30 years. That's equal to about 12 to 16 highly efficient chest x-rays. All the radiation from fallout from all tests thus far has increased this exposure by about five per cent, on the average, most experts agree. So, if fallout is doing anything to human inheritance, it is doing only a little more this way than the radiation which has always existed.

since life began.

This is caused by natural or background radiation. About 1,000 cosmic rays a minute strike the average human at sea level—and 2,000 a minute if you live at mile-high altitude.

COMPARED TO X-RAYS

All this natural radiation gives us, on the average, a dose of about three to four roentgens (units of radiation) in 30 years. That's equal to about 12 to 16 highly efficient chest x-rays.

All the radiation from fallout from all tests thus far has increased this exposure by about five per cent, on the average, most experts agree.

So, if fallout is doing anything to human inheritance, it is doing only a little more this way than the radiation which has always existed.

HAVE ROYAL GUEST

LONDON (Reuters)—Queen Mother Elizabeth Tuesday attended the wedding of her press secretary, Maj. John Griffin, 37, and Miss Henrietta Montagu-Douglas-Scott, 28, former social secretary to the wife of British ambassador Sir David Ormsby Gore in Washington.

The deerhound, strong and fast and weighing up to 110 pounds, has been known since the 16th century in England.

POLICE SEEK MOTHER

SAN DIEGO, Calif. (AP)—Police are looking for a woman who put her four-year-old child in a laundry dryer Tuesday for a ride. "It has happened before," William Larson, owner of a self-service laundry, said. The woman has cost him nearly \$100 in repair bills.

APPROVE WAGE BILL

WASHINGTON (AP)—A bill that would prohibit an employer from paying lower wages to women than men for the same kind of work was approved today by a House of Representatives labor subcommittee.

KELOWNA DAILY COURIER, WED., MAY 2, 1962 PAGE 9

Stop H-Tests Says Briton

MANCHESTER, Eng. (AP)—Sir Bernard Lovell, head of Britain's radio-astronomy station at Jodrell Bank, urged the United States today to abandon plans for a nuclear blast 300 miles above the earth. The explosion is expected to blow a huge hole in a radiation belt that girdles the earth, and to interfere with radio communications in the Pacific. "The operators of this project should be restrained by all possible means from this presumptuous act of moral right to interfere with the environment of the earth," Lovell said. "They should at least wait until they have made available the calculations or other information which would satisfy responsible scientists that any interference with the auroral zones and radiation belts will be negligible or at least short-lived." The first band of emigrants to reach Oregon over the famous trail from the Missouri River arrived in 1842.

YOUR HOROSCOPE

FOR TOMORROW

While A. M. subjects are on the mid-side, this would make a good period in which to make plans for afternoon activities, which will prevail after noon, will encourage accomplishment in important matters.

FOR THE BIRTHDAY

If tomorrow is your birthday, your horoscope indicates that during the next year, you may have to work a little harder than usual to achieve job and financial goals, but that the additional effort will pay off by year's end. Avoid extravagance and try not to become involved

with friends or family in financial deals. Some difficulties could ensue. Best periods, monetarily speaking, fall between now and late July, in mid-September, late November and late December.

Personal relationships will be governed by generally good aspects during the coming year, and those with artistic or scientific leanings should find the first three months of 1963 highly stimulating. Look for some interesting romantic developments in June, September and November; a chance to travel in early July.

A child born on this day will be constant and conservative building powers.

Supreme Court To Settle At Least One BCE Fight

VANCOUVER (CP)—At least one round of the legal battle over provincial expropriation of the British Columbia electric power utility will be settled in the Supreme Court of Canada.

The B.C. Power Corporation, former parent company of BCE, will appeal to the Supreme Court to have B.C. Electric assets placed under receivership.

Notice of the appeal was filed on the eve of today's main court action against the takeover. The notice follows the quashing a week ago of a B.C. Supreme Court order placing B.C. Electric under receivership pending settlement of the trial starting today.

The B.C. Appeal Court reversed the receivership ruling by a 3-to-2 majority following an appeal by B.C. Electric and the attorney-general's department.

SAYS BEYOND POW. A Central issue is the power corporation's suit for a declaration that the provincial government acted beyond its power when it expropriated B.C. Electric last August.

B.C. power is also asking the B.C. Supreme Court to set the compensation to be paid for the utility if the takeover is found to be legal.

B.C. Power Chairman A. Bruce Robertson told a shareholders' meeting Monday the corporation would still be willing to settle out of court.

He said B.C. power wants another \$53,000,000 in payment for B.C. Electric. The government has set the price at \$171,833,452 and paid that amount.

Pearson 'Delightful Not Leader'

TORONTO (CP)—Public Works Minister Walker said Monday night Liberal Leader Lester B. Pearson hasn't a shadow of intelligence in the realm of leadership.

"He's a delightful person," Mr. Walker allowed, "but he's a diplomat — and diplomats never make good leaders."

The works minister said the Liberals — a party that has "vanished" nationally — want to take over Canadian business the way government did in the Second World War.

♣ AK854

The bidding:

East South West North
Pass 1♣ 1♥ Pass 5♣
Pass Pass Pass 5♣
Pass Pass Dble.

Opening lead—ace of hearts. Defense is sometimes a delicate proposition. Look at this hand where West had to measure the situation perfectly to defeat five clubs.

South might have doubled four hearts, and this contract would have been defeated if North had accepted the double.

West led the ace of hearts against five clubs and shifted to a low diamond. Declarer won the trick with the king, ruffed a heart, and then cashed the A-K of clubs and A-Q of diamonds, ending in dummy.

He had eliminated all red cards from his own hand and dummy's by this time and was ready to tackle spades. To make the contract he had to hold himself to one spade loser.

He led the nine of spades. If East had ducked, South would have made the contract by playing low from his hand. But East rose to the occasion and played the ten on the nine.

South covered with the jack and now it was West who had come through with the right play. He let the jack hold, playing the deuce. As a result, South had to go down one.

Declarer entered dummy with a trump in order to lead another spade, but it did not matter whether he led the eight or five from dummy. In either case, he was bound to lose two spades and go down. Thus, if he led the eight, East would cover with the queen, while if he led the five, East would play low to trap the king.

But suppose West had taken the jack of spades with the ace when the suit was first led. Then he could not have defeated the contract regardless of what he returned.

If he led back the seven, dummy would play the eight to trap East's queen, while if he led back the deuce, dummy would play low to again trap the queen.

West's lowly seven proved to be the key factor in the razor-sharp battle.

Suburban Dailies Boom In Detroit Paper Strike

DETROIT (CP) — This automotive city, no stranger to newspaper strikes, is in the midst of its fifth drought of printed news since 1955.

Local radio and television stations have expanded their news programs. Suburban dailies and weeklies are booming. But the Windsor Star, sole daily of the

neighboring Ontario city, is making no attempt to hit the ready-made Detroit market.

The news blackout started April 11 with a strike by the International Brotherhood of Teamsters, whose members deliver the papers, against the morning Detroit Free Press. The rival News, an evening paper, suspended publication the next day because of an agreement that neither will publish if the other is strike-bound.

The two did manage to put out a combined Sunday edition April 15.

Four days later the Free Press settled with the Teamsters but new troubles arose from the International Typographical Union and the Plate Handers Union, whose members claimed they were locked out during the Teamsters' squabble.

Brief negotiations Monday apparently ended with a settlement nowhere in sight.

During the 20-day blackout some stop-gap measures have been taken to keep the people of the United States' fifth largest city abreast of the news.

WEEKLY GOES DAILY

But it's an awesome job considering the two dailies have a combined weekday circulation of 1,275,000 and combined Sunday sales of more than 1,500,000. The News, with the week day circu-

lation exceeding 723,000, is the biggest evening newspaper in the U.S.

The Detroit World, a weekly tabloid founded a few months ago, has gone daily in an attempt to fill the void and, says a spokesman, has doubled its circulation to about 100,000.

Two small dailies publishing within 35 miles of the city have seen their circulation soar.

Television stations, notably WWJ-TV which is owned by The News, have pre-empted prime network time in the evening to present lengthy news reports. New York, Chicago and other big-city newspapers disappear quickly from hotels and newsstands.

But the Windsor Star, publishing a cross the Detroit River, has remained aloof. A spokesman said The Star had not chosen to send into Detroit any more than the usual "few hundred copies" a day. He estimated the Star could sell at least 10,000 additional copies a day during the strike.

Detroit's biggest newspaper strike shut down The News, The Free Press and the now-defunct Times from Dec. 1, 1955, to Jan. 16, 1956. Other disputes knocked the three papers off the streets for seven days in August, 1957, for three days in September, 1958, and for another three days in September, 1959.

HAD HIS TWO CENTS WORTH

SYDNEY, Australia (Reuters) — A man who hired a taxi for the 1,900-mile trip from Adelaide to Sydney arrived here Sunday night with only two cents in his pocket to pay the driver.

The driver told police he had paid for the meal and other expenses because he was promised £100 for the return trip.

The passenger told police he suddenly "had an urge to go to Sydney." He was charged with vagrancy.

PROTEST TESTS

OSLO, Norway (AP) — About 400 college and high school students staged an orderly one-hour sit-down demonstration in front of the United States Embassy Monday, protesting American nuclear tests in the Pacific.

DEATHS

By THE CANADIAN PRESS
Wetaskiwin, Alta. — James Stanley Speakman, 55, Progressive Conservative member for the Wetaskiwin constituency in the last parliament.

Bowmanville, Ont. — George W. James, 75, former editor of the weekly Bowmanville Statesman and past president and director of the Canadian Weekly Newspapers Association.

Boulder, Colo. — James Winn, 109, one of the last ex-slaves in the United States.

Kew, England — Sir Sydney Cockerell, 94, close friend of authors George Bernard Shaw, Thomas Hardy and T. E. Lawrence.

Bethesda, Md. — Silas Blake Axtell, 77, admiralty lawyer who helped to found the old International Seamen's Union.

Newstead Abbey, on the edge of Sherwood Forest in Nottinghamshire, England, was founded in 1170.

MAC TELLS CANDIDATES

Democracy Has 2 Looks For Winning and Losing

By THE CANADIAN PRESS

Candidates in Canada's general election may take a tip from British Prime Minister Macmillan's 40 years' experience in politics.

This is how they can expect to feel after the votes are counted on June 18.

"When you lose, you're apt to lose patience with democracy," he says. "When you win—ah,

then you always knew the people were sound at heart."

Mr. Macmillan's strictly non-partisan comment was made Tuesday night in Toronto to newspaper publishers and editors at the annual dinner of The Canadian Press.

The economy and nuclear armaments were among the issues which emerged in the partisan aspects of a day's elec-

tioning that saw only two national leaders in action—Leslie Pearson of the Liberals in British Columbia and T. C. Douglas of the New Democratic Party in Alberta.

Prime Minister Diefenbaker was in Ottawa winding up the second day of talks, focusing on the European Common Market and its ramifications, with Mr. Macmillan.

Social Credit Leader Robert Thompson was putting the finishing touches on party organizational work in Toronto.

BACK IN ACTION

Today's schedule has Mr. Diefenbaker flying to St. John's for a quick two-day Newfoundland tour; Mr. Pearson visiting Kelowna and Cranbrook in interior B.C. and Lethbridge and Calgary in Alberta; Mr. Douglas speaking in Selkirk, Man.; and Mr. Thompson doing party administrative work in Ottawa.

During an election each Canadian political party has its own jargon for telling the voters how it proposes to solve the country's economic ills.

This is how various party spokesmen put it Tuesday: Justice Minister Fulton, speaking in New Westminster,

B.C., described the Progressive Conservative approach as that of "a government acting in partnership with private enterprise."

The government's policies were directed towards maintaining "a dynamic economic growth which does not compromise the freedom of the individual which is so fundamental to our Canadian heritage."

Real Caouette, deputy Social Credit leader issued a statement in Montreal, saying his party seeks "a regime of security and freedom."

EXTOLS PLANNING

NDP Leader Douglas told reporters in Calgary the key to national advancement is "economic planning." In such planning labor had an important role but its use of strikes as a negotiating weapon was "obsolete."

Defence was the keynote of statements by the Liberal leader in his first election appearance on the West Coast. Mr. Pearson visited the RCAF station at Comox, Courtenay and Victoria on Vancouver Island.

Mr. Pearson, named Chief Man Full-of-Knowledge by the Comox Indian band, said in Victoria a Liberal government would "discuss with our allies in NATO the exact nature of the commitments that the present government has made for Canada."

Accusing the government of defaulting defence commitments to "our allies," he said that under a Liberal administration, Canada would help limit the number of countries with nuclear weapons by using conventional weapons for the time being.
